UNITED STATES TRADE BXPAN-SION.

The chief of the United States Bureau of Statistics has just made public a statement of the foreign country for the fiscal year ended June 30, 1862. It shows that the cates and value of this trade for last year was unprecedentially as the statement of the trade for last year was unprecedentially as the country of the country. The aggregate value of the imports and exports of merchandies stained its highest point, amounting to \$1,287,726,910, as against \$1,299,070,000 during the isseal year 1891, an increase of \$122,329,901, and an increase of \$127,102,905, since 1895. This is also a very large increase over the upwars from 185 to 1801, increase for the top years from 185 to 1801, portion of \$25,411,017. The value of imports a \$25,411,017. The value of imports of the fixed year value for the past ton years. There was an increase of \$102,901, and increase of the past ton years. There was an increase of imports of collect, raw sills, and suggest that decrease in the imports of the past ton years. The value of imports admitted free of duty was \$48,001,1156, an increase of free imports over the fixed year 1801 of 1809, 1909, year 1892 was \$1,000,035,626, as against \$854,460,810 during the fiscal year 1801, an increase of \$145,565,816. This is the first year of the commerce of the United States when the expects of merchandise have reached \$1,000,000,000. The average annual value of the expects for the past know reached \$1,000,000,000. The average annual value of the expects for the past know and \$1,000,000,000. The average annual value of the last year exceeded that average annual value by \$275,000,700. The foregoing is taken from a recent lasse of the London Adsertive. # THE REASONS!

GOUGH can sell cheaper than other dealers: First—Because he is the largest any firm and, consequently, is not compelled to handle only on manufacturer's goods and at what ever prices they have a mind to task. Third—Because we have ample means to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up if is a snap; and Fourth—Because we sell ten times more goods than any other firm and, consequently, can sell on a smaller margin of profit.

Some of our high-priced friends cannot see anything funny about GOUGHI selling so cheap and call us "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall whore they may," and it in falfilling this mission we are breaking the back bone of our high-price opp sitionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well. we freely admit we are low dealers, wallowing in the lowest depths of bed-rock prices, while our exalted brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, stee, but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsammer Sale still continues and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c, per pair, sold by other dealers before we opened here for 50c., but we compel them now to sell them for 25c.—and they are mad.

# THE REASONS!

GOUGH can sell cheaper than other dealers: First—Because he is the largest any firm and, consequently, is not compelled to handle only on manufacturer's goods and at what ever prices they have a mind to ask. Third—Because we have ample means to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up if is a snap; and I fourth—Because we sall ten times more goods than any other firm and, consequently, can sell on a smaller margin of profit.

Some of our high p iced friends cannot see anything funny about GOUGH selling so cheap and a use "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and if in fulfilling this mission we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no haro, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time.

Yes, we are called "fake" dealers and 'low" dealers by our opponents. Well, we freely admit we are low deal vs, wallowing in the lowest depths of bed-rock prices, while our exalted brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsammer Sale still continues and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c per pair, sold by other dealers before we opened here for 50c., but we compel them now to sell them for 25c.—and they are mad.

# THE REASONS!

GOUGH can sell cheaper than other dealers: First.—Because he is the largest any firm and, consequently, is not compelled to handle only on smandaturer's goods and at what ever prices they have a mind to task. Third.—Because we leave ample manns to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up if is a snap; and Fourth—Because we sell ten times more goods than any other firm and, consequently, can sell on a smaller margin of profit.

Some of our high priced friends cannot see anything funny about GOUGH selling so cheap and call us "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and if in fulfilling this mission we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time

Yes, we are called "fake" dealers and 'low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed-rock prices, while our exalt-d brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fako" dealers, etc., but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsammer Sale still continues and we are giving extraordinary cuts all along the line, as we are dotermined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c per pair, sold by other dealers before we opened here for 50c., but we compel them now to sell them for 25c.—and they are mad.

# THE REASONS!

GOUGH can sell cheaper than other dealers: First—Because he is the largest any firm and, consequently, is not compelled to handle only on manufacturer's goods and at what ever prices they have a mind to ask. Third—Because we have ample means to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up if is a snap; and I fourth—Because we sell ten times more goods than any other firm and, consequently, can sell on a smaller margin of profit.

Some of our high priced friends cannot see anything funny about GOUGH selling so cheap and call us "fake deal rs," but when in ungurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and if in fulfilling this mission we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do cur business in a square, honorable way, giving dollar for dollar every time

Yes, we are called "fake" dealers and 'low" dealers by our opponents. Well, we freely admit we are low dealers, w.dlowing in the lowest depths of bed-rock prices, while our exalt-d brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequent to their calling us "fake" dealers, stee, but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsammer Sale still continues and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c per pair, sold by other dealers before we opened here for 50c., but we compel them now to sell them for 25c.—and they are mad.

Trains.
The creeping of rails has attracted some attention of late, and while we do not attempt to explain it, we offer a point on the fact that on lines running north and south consister rail; that is, this trange more-ment of the rail toward the south is more marked in one rail than the other on the same track. Furthermore, it has been called that no such a line the eastern

# THE REASONS!

GOUGH can sell cteaper than other dealers; First—Because he is the largest any firm and, consequently, is not compelled to handle only on smanufacturer's goods and at what ever prices they have a mind to ask. Third—Because we have ample means to buy where we have an on matter how large the sock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up if is a sump; and I fourth—Because we soll ten times more goods than any other firm and, consequently, can sell on a smaller margin of profit.

Some of our high p iced friends cannot see anything funny about GOUGH selling so cheep and call us "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and if in fulfilling this mission we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do cur business in a square, honorable way, giving dollar for dollar every time

Yes, we are called "fake" dealers and 'low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bedrock prices, while our exalt derethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsammer Sale still continues and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the noom for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19e  $_1$ er pair, sold by other dealers before we opened here for 50c., but we compel them now to sell them for 25c.—and they are mad.

THE REASONS!

GOUGH can sell cheaper than other de dras: First—Because he is the largest any firm and, consequently, is not compelled to handle only on smanufacturer's goods and at what ever prices they have a mind to ask. Third—Because we have ample means to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always propared to pick it up if is a snap; and Fourth—Because we sell ten times more goods than any other firm and, consequently, can sell on a smaller margin of profit.

Some of our high priced friends cannot see anything funny about GOUGH selling so cheap and call us "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and if in falfilling this mi-sion we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time.

Yes, we are called "fake" dealers and 'low" dealers by our opponents. Well, we freely admit we are low dealers, wellowing in the lowest depths of bed-rock prices, while our exalted bretbren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial and a household word in every family.

# THE REASONS!

GOUGH can sell cheaper than other dealers: First—Because he is the largest any firm and, consequently, is not compelled to handle only on smanufacturer's goods and at what ever prices they have a mind to ask. Third—Because we have ample means to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up if is a snap; and Fourth—Because we sell ten times more goods than any other firm and, consequently, can sell on a smaller margin of profit.

Some of our high p iced friends cannot see anything funny about GOUGH selling so cheap and call us "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and it is fulfilling this mission we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed-rock prices, while our exalted brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling as "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsummer Sale still continues and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c per pair, sold by other dealers before we opened here for  $50\mathrm{c.}$ , but we compel them now to sell them for  $25\mathrm{c.}$ —and they are mad.

# THE REASONS!

GOUGH can sell cheaper than other dealers: First—Because he is the largest any firm and, consequently, is not compelled to handle only on unanufacturer's goods and at what ever prices they have a mind to ask. Third—Because we have ample means to bey where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up if is a snap; and Fourth—Because we sell ten times more goods than any other firm and, consequently, can sell on a smaller margin of profit.

Some of our high-priced friends cannot see anything funny about GOUGHI selling so cheap and call us "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and if in falfilling this mission we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed-rock prices, while our exalted brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsammer Sale still continues and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c per pair, sold by other dealers before we opened here for 50c., but we compel them now to sell them for 25c.—and they are mad.

THE REASONS!

GOUGH can sell cteaper than other dealers: First—Because he is the largest any firm and, consequently, is not compelled to handle only on manufacturer's goods and at what ever prices they have a mud to ask. Third—Because we have ample means to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up it is a snap; and Fourth—Because we sell ten times more goods than any other firm and, consequently, can srll on a smaller margin of profit.

Some of our high-priced friends cannot see anything funny about GOUGHI selling so cheap and call us "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "how to the line and let the chips fall where they may," and if in fulfilling this mission we are breaking the back bone of our high-price oppolitionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed-rock prices, while our exalted brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, stee, but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsummer Sale still continues and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c. per pair, sold by other dealers before we opened here for 50c., but we compel them now to sell them for 25c.—and they are mad.

TOWN TALK.

He is dead ! Yes, he is dead—but to the To the one it means that the last heart's best took from life its only joy. To the other it means that life's great comfort has gone, never to return.

It is well that the "crappings of wos" are not so necessary as formerly.

There was a time that a funeral was a evere tax upon the resources of the living.

Happily the time has passed when a funeral is the occasion for a "aplurge." I attended decoration day, so fittingly honored by the Oddfollows, and was delighted.

The slient dead, with upturned faces, are nothing for the interest taken in the But the day to the living revives semories and associations that are fruitful good to the living.

ne Office.

It is notable that all jokes on the subject have been expressed by persons who were not present.

It is form and that if we had working man as the head of public affarst would be better than having so many lawyers in positions of trust.

The personnel of the present Goundle committees as the birth of a Sunday's cauces and the results to the ratepayers is, as could be expected.

THE REASONS!

GOUGH can sell cheaper than other dealers: First—Because he is the largest any firm and, consequently, is not compelled to handle only on manufacturer's goods and at what ever prices they have a mind to ask. Third—Because we have ample means to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up if is a snap; and Fourth—Because we sell ten times more goods than any other firm and, consequently, can srll on a smaller margin of profit.

Some of our high-priced friends cannot see anything funny about GOUGH telling so cheap and call us "fake deal rs," but when inaugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and if in fulfilling this mission we are breaking the back bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time.

Yes, we are called "fake" dealers and "low" dealers by our opponents. Well, we freely admit we are low dealers, wallowing in the lowest depths of bed-rock prices, while our exalted brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Midsummer Sale still continues and we are giving extraordinary cuts all along the line, as we are determined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c, per pair, sold by other dealers before we opened here for 50c, but we compel them now to sell them for 25c—and they are mad.

What is

Sastoria is Dr. Samue: Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregorie, Props, Scotting Syrups, and Castor Oll. It is Pleasant. Its guarantee is thirty years use by Millions of Mothers. Castoria destrops Worms and aligns feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhena and Wind Colic. Castoria relieves teething troubles, cures constipation and flattelency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleps. Castoria is the Children's Panacca—the Mother's Friend,

### REASONS!

GOUGH can sell excaper than other dealers: First.—Because he is the largest any firm and, consequently, is not compelled to handle only on unanufacturer's goods and at what ever prices they have a mind to ask. Third.—Because we have ample means to buy where we like, and no matter how large the stock, whether \$1,000 or \$100,000 worth, we are always prepared to pick it up it is a snap; and Fourth—Because we sell ten times more goods than any other firm and, consequently, can s: It on a smaller margin of profit.

Some of our high priced friends cannot see anything funny about GUUGHI relling so cheap and call us "fake deal rs," but when in ugurating this one price and low price system we did so with a determination to "hew to the line and let the chips fall where they may," and if in fulfilling this mission we are breaking the brick bone of our high-price oppositionists, we are sorry for them, for we mean them no harm, but claim the right to do our business in a square, honorable way, giving dollar for dollar every time.

Yes, we are called "fake" dealers and 'low" dealers by our opponents. Well, we freely admit we are low dealers, wellowing in the lowest depths of bed-rock prices, while our exalted brethren look down upon us from their high places and go wild because we are capturing their trade, and this is the sequel to their calling us "fake" dealers, etc., but it won't go down, for the name of GOUGH is provincial and a household word in every family.

Don't forget our Great Mids unmer Sa'e still continues and we are giving extraordinary cuts all along the line, as we are de'ermined to carry no goods over until next season, but require the room for our big Fall Stock, which will commence to arrive next month.

Thousands of Overalls only 19c per pair, sold by other dealers before we opened here for 50c,, but we compel them now to sell them for 25c—and they are mad.

We Hit the Nail on the Head!

It you were as rich as Rothschild you couldn't afferd to waste your money, and you hit the nail squarely on the head every time. You save it. We make no false pretences, for the very good reason that false pretences don't pay. We quote the smallest possible mandal profit, and occasionally we make sacrifices. Here for instance,

There is no flight of artistic imagination. Not only have we all styles on hand, but they are not on hand to stay; they must be disposed of within a given period, and no trifling obstacles will be allowed to stand in the way. We are now in a position to make peculiarly favorable terms with buyers. It can make no possible difference to us what you may happen to want in our lines, it is a matter of personal pride with us to be always ready to place it at your disposal. Consult your personal inclinations and we will see to it that in every purchase you make your interests are consulted.

A BAD PRE-EMINENCE.

Amongst other respects in which the United States is the most notable country in the world, it has attained notoriety as having more marders committed within its borders than has any other civilized country in the world. On this subject the Owego Palladium said in a recent issue. "The Conness Bereach has issued a boiletin which gives the existicts of murders in the United States in 1990. It may well be inspined that the subject is not an attractive one. It might be a pleasing subject is not seeme at least, if fower murders coursed in the United States than in other countries. The United States is not an attractive one. It might be a pleasing subject is not seeme at least, if fower murders coursed that has placed in one passed in the United States than in other countries. The statistics show that of 28,289 prisoners in postal institutions, 7,307 were charged with homidele. This means that there are 110 marderers to every 1,000,000 inhabitants. The statistics published in 1880 show that the average was considerably smaller then. The tendency to kill meem to be on the increase.

"It is a common theory that drink is responsible for the anjority of murders. The statistics of the Connas Bureas do not be set of the 1440 w. On the contrary it ap peace that the majority of murderers are not given to statistics of murder in the United Statistics of

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregorie, Props, Scotting Syrues, and Castor Oll. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers: Castoria destroys Worms and allays fevershness. Castoria prevents vomiting Sour Curd, curse Diarrhean and Windt Colic. Castoria relieves teething troubles, cures constipation and flatelency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacca—tine Mother's Friend.

Cantoria is an excellent medicine for chiles. Mothers have repeatedly told me of its od effect upon their children."
